

ENVIRONMENTAL POLICY

OUR PLEDGE

We pride ourselves in being part of the green growth pledge and to this end, we use sustainable, recycled and [upcycled](#) materials whenever possible.

We will continue to use local suppliers where possible

We always use recycled printing paper

All our drones use rechargeable Lithium Polymer (LIPO) and are disposed of in accordance with local policies

All electrical lighting at the base of operations have been converted to LED bulbs

Paper and card usage has been minimised. We only use E business cards unless specifically cards are requested, we send E invoices as opposed to paper.

Transport and travel by car to local jobs have been reduced, by making use of our E bicycle.

We encourage our employees to be environmentally and sociably responsible through regular training and updates to procedures.

GM Drones UK have also signed up and become part of the Equality pledge whereby we will make a positive commitment to promoting and delivering an accessible and inclusive service.

Recognizing and promoting the use of the Welsh language

Asking suppliers for copy of their Equal opportunities policy

We take pro-active steps towards creating an inclusive, fair, and diverse workplace

Signed: Gerard A Morgan (Owner and Chief pilot GM Drones UK)
